

NFC label Dipole 20x50

The 20x50 NFC tags from Dipole are designed for multiple applications such as brand protection, access control, or payment gateways.

Dipole manufactures NFC labels with a size of 20x50 (13.56 MHz) to meet any required need, such as product authentication, data transfer or payment gateways. Dipole's NFC tags are printable using standard NFC printers and can feature different integrated circuits depending on the required memory.

All of them comply with the international ISO 14443A standards characteristic of NFC frequency.

Product benefits

- Possibility of tracking the product
- Fully customizable
- Easy to use and application
- Worldwide delivery

01

The applications and preferred uses of RFID tags are:

- Product authentication
