

RFID Label Logistic 100x50

RFID tags for logistics from Dipole are manufactured in a variety of materials. All of them can be printed using RFID printers from any brand.

The 100x50 RFID tag for logistics is designed for logistics environments, product identification, or pallets. It offers different adhesive options to be applied to any required surface. Furthermore, they can be customized with various features such as EPC memory or adhesive type. They comply with international

UHF technology standards, enabling their reading throughout the entire supply chain process for end-to-end product tracking.

Product benefits

- Possibility of tracking the product
- Fully customizable
- Easy to use and application
- Worldwide delivery

01 The applications and preferred uses of RFID tags are:

- Pellets, palots and boxes
- Logistics processes
- Industrial processes
- Plastic containers
- Hostile work environments
- High temperatures
- Cold storage

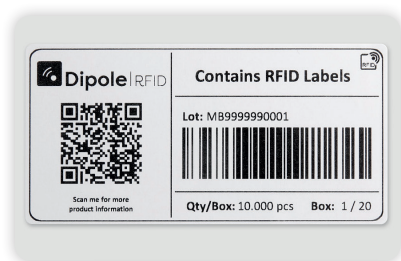

02

Product details

Frequency	UHF
IC type	Impinj / NXP / Higgs
EPS Memory	Depending of IC Family
Material	Paper / PP / PE / PET / Thermal Materials
Standards	ISO 18000-6C / C1 / G2 UHF / ISO 14443 A NFC
Adhesive	All permanent and removable types
Size	100 mm x 50 mm
Temperature	Depending of material

03

Product features

Customizable label designed to achieve the best solution for your needs.

Printable on all standard RFID printers worldwide.

Different internal IC depending on the memory that is required.

Multiple delivery formats for greater comfort and according to need.
